

DAVID MOZER

Transportation specialist, with specialties in bicycle and pedestrian facility planning and design, transportation planning, safety education and public involvement process.

SELECTED PROJECTS

<u>Category</u>	<u>Project/Client</u>	<u>Project Description</u>
Comprehensive Planning	Metropolitan Transportation Plan: Non-Motorized Element, Puget Sound Regional Council	Developed plan for regional significant pedestrian and bicycle system, including baseline data report, criteria for system, and policies for land use, system plan, safety, building codes and multimodal. Conducted public participation process and focus groups.
Transportation Demand Management	Non-motorized Travel Facilities Integration Project, Pierce Transit	Prepared strategies for integration of non-motorized travel into transit service and TDM program.
Multi-use Trail Planning	Idaho Centennial Trail, Coeur d'Alene / Post Falls / Kootenai County	Reviewed landscape architects drawing and advised on design with respect to location, engineering standards, safety, intersection configuration, channelization and signage.
Multi-modal Planning	Non-Motorized Access Study, Regional Transit Project, METRO	Advised on pedestrian and bicycle access and use of transit.
Transportation Planning	Comprehensive Bicycle Plan, Billings, MT	Advised on engineering, education, enforcement, encouragement and public involvement aspects of MPO bicycle plan.
Urban Planning	Mercer Corridor Alternatives Study, Seattle Engineering Department (SED)	Advised on compatible motor vehicle/bicycle configuration and design on transportation study.
Multi-use Trail Design	I-405: Coal Creek to North Renton HOV project, Wash. St. Department of Transportation (WSDOT)	Reviewed design and advised on relocation and redesign of trail intersections.
Safety Education	Seminar on Design and Implementation of Bicycle Safety Programs, International Bicycle Fund (IBF)	Seminar for police, recreation directors, PTA's, schools and others involved in bicycle safety. Edited 70 page course text.
Multi-use Trail Planning	Duwamish/Green River Trail, King Co. Parks Division / SED/ WSDOT	Preliminary corridor planning for 25 mile multi-use trail.

DAVID MOZER: SELECTED PROJECTS (cont)

<u>Category</u>	<u>Project/Client</u>	<u>Project Description</u>
Multi-use Trail Design	T-91 Trail, Port of Seattle	Reviewed landscape architects design and advised on engineering, configuration and transition intersections.
Safety Education	Injury Reduction Program, King Co. Emergency Medical Services Division	Designed curriculum, prime consultant and lead instructor for children's bicycle safety education program.
Comprehensive Planning	Comprehensive Transportation Improvement Plan, Seattle Engineering Department	Developed a system of street classifications for bicycle use. Advised city on bicycle elements of transportation policy.
Urban Planning	Downtown Land Use and Transportation Plan, Seattle Engineering Department	Advised city on corridor and facility requirements for bicycle transportation.
Rural Economic Development	Bicycle Trailer Encouragement, Zimbabwe, Ghana & Kenya	Design, built proto-types and conducted workshops in the manufacture of easy to make bicycle trailer/push cart.
Origin/Destination Survey	Burke-Gilman/Sammamish River Trail Use Study, King Co. Parks Division	Design and conducted user survey. Analysed data and wrote final report covering demographics, use patterns, user attitudes and accidents.
Parks & Recreation Planning	Comprehensive Parks & Recreation Plan, Pierce County	Advised on planning and implementation of recreational trail system.
Code Drafting	Model Ordinance For Path Users, International Bicycle Fund.	Drafted ordinance to improve safety, reduce congestion and clarify responsibilities on multi-use, non-motorized path. The model ordinance is the basis of an ordinance adopted by the King County Council and safety education programs in King County, Seattle, Tacoma and Dallas.
Multi-use Trail Planning	I-90: Mercer Slough Factoria Interchange Trail, WSDOT	Conceptualizing and initial planning and design.
Multi-use Trail Design	I-90: Mercer Island Trail, WSDOT / Mercer Island	Review landscape architects drawings and advised on redesign with respect to engineering standards, safety, intersection configuration and channelization.
Multi-use Trail Planning	I-90: Mt. Baker Lid, WSDOT / SED	Conceptualizing and planning on design and location.
Highway Design	SR-522: Shoulder Improvement, WSDOT	Reviewed design and advised on bicycle safe roadway improvement configuration.
Rural Economic Development	Bicycle Transportation Program, Peace Corps/ Togo, Ghana and Kenya	Wrote operations and safety manual for program. Training on bicycle transportation.

DAVID MOZER: SELECTED PROJECTS (cont)

<u>Category</u>	<u>Project/Client</u>	<u>Project Description</u>
Traffic Design	Retained as consultant, City of Bellevue	Reviewed designs and advised on configuration and safety considerations on streets, sidewalks, trails and intersections on multiple projects with bicycle concerns.
Urban Planning	Comprehensive Transportation Plan, City of Bellevue	Advised Bellevue City Council on bicycle transportation policy.
Safety Education	Safety Brochure Development, IBF	Development and production of brochures on bicycle helmets, sharing multi-use trails and sharing the road.
Safety Education	Bicycle Helmet & Safety Promotion, IBF	Organized and administered the annual spring distribution of 50,000 safety brochure to elementary school students. (3 years)
Transportation Planning	International Cycle Planning Conference, London 1985, Gronigen 1987, Copenhagen 1990, Montreal 1992	Presented lectures on bicycle transportation and planning.
Safety Education	Sahabat Alam Malaysia & Amici della Biciletta Italy	Consulting on bicycle safety education programs and development of safety brochures.
Bicycle Transportation	Peace Corps/Wash DC, World Resources Inst., Inst. For Transportation & Development Policy, Int'l Conference on Appropriate Transportation, ProBike	Seminars on national development and transportation.
Transportation Planning	National Development Strategy, Government of Liberia	Advised Ministries of: Postal Affairs; Youth & Sports; Industry, Commerce & Transportation; Culture & Tourism; and National Defence on bicycle transportation.
Bicycle Transportation	Public Awareness Project, IBF	Conducted interviews with National Public Radio, Voice of America, Voice of Kenya, WHYY-FM, KIRO-TV.
